## Exerienceed On-Site Computer Repair

We are the most prepared and equipped on-site Computer Consultants in Los Angeles.

Our rapid on-site and affordable "shop-service" computer repair services include software trouble-shooting and hardware repair of all IBM compatible brands, including DELL, HP, Sony, IBM, Compaq, Toshiba, Gateway, as well as "no name" brands.

We are experts at high-speed connection setup and can quickly resolve DSL/Cable Modem connectivity and sharing issues.

We will quickly setup your peer-to-peer network with file and printer sharing at affordable rates, deliver parts and equipment at no extra cost, and most importantly, support what we service.

" . . your telephone support and service is excellent" Dr. Frank Drucker, (Psychiatrist) Santa Monica

"Competent, truthful, keep your word to the client, efficient, and nice to your customers." Divorce Clinic, Law Office of Loretta Hersh

"excellent [and] at a really fair price. I will definitely call you again for any computer problems "  
Pacific Tree Care, Jaunine McGrew,
